

British Car Club of SW Florida Minutes of monthly meeting July 13, 2010

Location: Famous Dave's, Ft Myers, FL

Meeting called to order at 6:50pm by club president Headley Wilson. There were 35 members in attendance.

Four members whose birthdays fell in July were treated to a complimentary birthday ice cream, and a rousing chorus of "Happy Birthday."

A motion was seconded and voted to accept the minutes as submitted.

Dan C., Treasurer, gave the treasurer's report indicating the club's accounts were in good standing with a positive balance.

New (returned) member Terry Luck was re-introduced, as well as his guest, Scott Cameron. Pete Klempka introduced his guest, his father Joe who previously owned a LBC.

Team Reports:

- Marji Wilcox stated that club logo patches (sew on) are available at \$3 per patch and club license plates at \$6 each.
- Al Rubin displayed club coasters that could be available.
- Tom Sizemore detailed plans for a lunch run on 7/17 at the Laishley Crab House.
- Jerry Wilcox discussed the recent events at Tech Central: The upstairs parts storage is organized so an inventory can now take place; repairs made include removing rattling parts from under 2 cars, radiator replacement on a Fiero, attempts (so far unsuccessful) to replace a timing belt on Steve Ruppert's car and successful installation of air conditioning to the trailer used to take vehicles to Sebring, making it inhabitable for weekend jaunts. Also, the GT6+ is painted a beautiful green and is about a month away from seeing real track time.
- Tech Central: open this Friday morning only as he, Dan C., Bill Newman and Kenny Taylor will be going to Sebring Friday afternoon for the weekend.
- Barrie Howard announced he recently won a race with his VW.
- Headley announced that the web site is currently down due to technical difficulties, but that when it is back up, member Tom Sizemore will be the new web site manager.
- Headley announced that soon all members will be sent an email asking for their input into a "utility bag" (a list of items necessary to carry in our LBCs to make repairs in the event of a breakdown.) He used as an example his immediate need for a fuse so his coolant fan would operate. Member Steve Ruppert said he had a supply in his MGB and could assist in the repair after the meeting.

Meeting adjourned at 7:40pm.

Respectfully Submitted, Ken Oehler, Secretary
